FLUKA is a globally renowned Monte Carlo particle transport and interaction code widely used in various scientific domains, including nuclear physics, accelerator technology, space and medical applications among many others. Last year, Lanzhou University successfully hosted the 23rd FLUKA beginner and intermediate FLUKA course, receiving widespread acclaim. To enhance the mastery of advanced features among users the 6th FLUKA Advanced Course will be hosted this year at Lanzhou University, alongside a Youth Workshop (in English). Priority will be given to workshop participants showcasing their scientific contributions with FLUKA and outstanding presenters will be awarded prizes.
